

Product Technical Specifications

1		KK 9000		
			ÜTB no: 90001	
Discount of the second	Shape:	Round conical		
Dimensions	Volume under lid:	9,20 L +/- 70 ml		
	Full Filled Volume:	9,60 L +/- 70 ml		
	Top dia (Ext) without lid:	260 mm +/- 5 mm	Height without lid:	215 mm +/- 3 mm
	Top dia (Ext) with lid:	264 mm +/- 5 mm	Height with lid:	217 mm +/- 3 mm
	Base diameter (Ext):	230 mm +/- 3 mm	_	
Lid system	Safety system:			
		Tamper evidence lock Yes		
	Safety circle: Tamper proof:	Differs with lid type		
	Lid Types:	Standard		
Handle	Handles:	Plastic standard	-	
Printing	Decoration options:	Offset pail print	-	-
	·	Offset lid print		
	Printing Area:	160 X 800 mm		
	Printing gap:	0 mm		
	Printing overlap:	3 mm		
Plastic Material	Material options:	PP Copolymer	-	-
	Masterbatch options:	General Colurs: White 10 Other colours can be ask	01, Transparent, Naturel, ked	
	Approved:		terbatches and atistatic agen Ministry of Agr. and Rural Aff	
Sturdiness	Stacking (Full):	40 kg (=the max weight that the pail which is at the base of stack can carry Stacking test made on 23' C for 2 months with standart PP raw material. Stackability may vary with diffrent factors. Data above are for indication. For that reasons, customers should make their own tests to determine stacking and transportation quantities. For transparent materials the durability is lower, customers mus consider that before stacking transparent products.		
Weight	Pail weight (nude):			
	Fail Weight (hude).	215 g +/- 8 g	-	
	Lid weight:	0		
	Lid weight:	55 g +/- 3 g	-	
	5 (,	0		
Packing	Lid weight: Weight plastic handle: Palette	55 g +/- 3 g 15 g +/- 1 g	Lid carton box: YES	
Packing	Lid weight: Weight plastic handle: Palette 1300x1100x2100 mm:	55 g +/- 3 g 15 g +/- 1 g 1000 pieces	Carton box size: 570x57
